Heritage at Risk

Historic England

East of England Summary 2017

Historic England's Heritage at Risk Register provides an annual snapshot of the condition of England's historic sites. The Register helps us to target resources to those sites which are most threatened. Following on from successes in earlier years, 2017 has seen the number of entries on the East of England Register fall below 400 for the first time. With expert advice and grant aid, our regional team of architects, archaeologists and advisors has been able to assist owners, local authorities and other stakeholders to find sustainable solutions for threatened listed buildings, scheduled monuments, registered parks and gardens and conservation areas. The threats are as diverse as deep ploughing, neglect and development pressure. Success almost always arises from developing effective partnerships – with owners, local authorities, preservation trusts and other funders. Although new challenges arise continuously, we look forward to building on these partnerships and successes in the years to come.

John Neale Planning Director, East of England

This year saw an overall reduction of the number of assets on the East of England Register, from **412** in 2016 to **393** in 2017, taking account of both removals and additions. £1.5 million in Historic England grant was spent on **31** entries.

The biggest success was for listed places of worship, with **32** entries coming off the Register (**17** additions). Almost all these removals were made possible with the help of grants from the Heritage Lottery Fund. More than half of the churches are in Norfolk, noted for its many fine medieval churches reflecting a former wealth based on agriculture. Today, economic circumstances have changed and congregations have dwindled, and the challenge to maintain these much-valued places in good repair is urgent.

There was success too in reducing the number of scheduled monuments on the Register, with nine archaeology entries being removed (one addition). Damage from arable cultivation is the cause of risk to 72% of the archaeological entries on the East of England Register, almost double the national figure. Countryside Stewardship agreements, administered by Natural England, are the most effective way to eliminate the risk. These agreements compensate

farmers who adopt environmentally-friendly regimes. Our archaeologists advise Natural England on applications that involve scheduled monuments, ensuring that appropriate steps are taken to protect them. Among the monuments no longer at risk in 2017 are the Stone Age **Great Wilbraham Causewayed Enclosure**, the Bronze Age **Round Barrow Cemetery at Suet Hills**, and the Iron Age **Pitchbury Ramparts hillfort**.

Defensive sites of all types form one of the most tangible aspects of England's heritage. The medieval **Walden Castle** came off the Register this year (see overleaf), as well as **Bawdsey Transmitter Block** on the Suffolk coast, which played a crucial role in the development of radar surveillance during the Second World War. Another success, the culmination of a decade-long programme of advice and grant assistance, has been the removal from the Register of the former **Atomic Bomb Store at RAF Barnham**. This once top-secret Cold War complex housed 'Blue Danube', Britain's first atomic bomb. In 2017 we continued to support and grant assist two other major projects dedicated to rescuing, interpreting and making publicly accessible our military heritage: **Coalhouse Fort** on the Thames Estuary, which formed part of Britain's defences from 1861 to 1945, and the internationally important **Stow Maries Great War Aerodrome** (see opposite).

Simon Buteux Principal Adviser, Heritage at Risk

Cover image: Great Gransden Windmill, Cambridgeshire. With parts of the structure dating back to the early 17th century and its machinery intact, this windmill is one of the oldest and most important in the country. Urgently needed repairs have been completed, with advice and grant support from Historic England, with just the sails to go back on. The mill can then be taken off the Heritage at Risk Register. An enthusiastic local trust is poised to take on responsibility for the monument from Cambridgeshire County Council and open the mill to the public.

Designated assets on the 2017 **East of England Register**

There are **305** assets on the **East of England Register**, **9** fewer than in 2016

Stow Maries **Malden, Essex**

Stow Maries, in Malden, Essex, is of international significance as probably the most complete surviving First World War aerodrome in Western Europe.

The aerodrome became operational in 1917. It was strategically located for air defence against German bombing raids on London, initially by Zeppelin airships and later by Gotha bombers.

That defence was carried out by 37 Squadron of the Royal Flying Corps.

Of the original 47 buildings on the aerodrome, 24 survive. Through outstanding volunteer effort and fundraising, repair of some of the buildings began in 2007, work which included the creation of a museum in the Squadron Offices. In 2012, all 24 of the surviving buildings were

listed at grade II* and more than half of the buildings, some in a very perilous condition, were put on the Heritage at Risk Register. A wide range of building types is represented, including the now repaired Pilots' Ready Room and Water Tower (see image).

In 2013 this historic site was purchased by Stow Maries Great War Aerodrome Ltd, a charity set up for the purpose of preserving it for public benefit and education. Since then, Historic England has supported the charity with expertise and grants for a programme of repairs. This is on-going and it will be several years yet before all the buildings are in a safe condition and the site as a whole can be removed from the Register.

Stow Maries, which is largely volunteer-run, is open to the public six days a week and a popular venue for school visits. There are two museums to explore as well as a collection of (replica) WWI aircraft, which take to the air at special events. A major Heritage Lottery Fund grant has been awarded, which will enable the development of visitor facilities and the repair of more of the buildings.

Walden Castle **Saffron Walden, Essex**

The castle once dominated the Essex market town of Saffron Walden. A Norman motte-and-bailey castle, it was probably rebuilt in stone by Geoffrey de Mandeville, Earl of Essex, around 1125-1141, during the civil war between King Stephen and Matilda in which Geoffrey died. By the 16th century it was already a ruin, and today all that survives above ground are the remains of the square keep – the walls reduced to their rubble cores – and surrounding earthworks. Nevertheless, it is a substantial monument woven into the historic fabric of the town; the shape of the inner bailey – which today contains Saffron Walden museum – is clearly reflected in the layout of the surrounding streets.

Walden Castle went onto the Heritage at Risk Register because uncontrolled vegetation growth and exposure to the elements were causing decay and collapse of the rubble walls. With advice and grant support from Historic England, in 2013 Uttlesford District Council embarked on a programme of stabilisation and repairs, now complete, which included protecting the walls with a ‘soft capping’ of carefully selected grass and other plants. As a result,

Walden Castle came off the Register in 2017. Landscaping work and improved interpretation will complete the scheme, making the castle once again fully accessible to the public.

Caring for Conservation Areas

This year we are celebrating the 50th anniversary of conservation areas. These come in all forms, from the quintessential English village to the urban heartland. They are united by a common theme – they are special places full of character and history, much loved by those who live and work in them. Because of their unique character they are also engines for economic regeneration and this is the key to tackling risk in many conservation areas.

This year we have added more conservation areas to the Register than have been removed. But it's also the year we launched Heritage Action Zones, many of which include conservation areas at risk where we will unlock economic potential with our partners over the coming years.

THE REGISTER

Content and criteria

LISTING

Definition

All the historic environment matters but there are some elements which warrant extra protection through the planning system. These are included in the [National Heritage List for England](#) (NHLE), an online searchable database of listed assets. Since 1882, when the first Act protecting ancient monuments and archaeological remains was passed, government has been developing the system of statutory protection of heritage assets. Listing, which is applied to buildings, emerged from the post-Blitz 1940s Planning Acts. There are now nearly 400,000 assets on the NHLE including listed buildings, scheduled monuments, registered parks and gardens, registered battlefields and protected wreck sites.

Historic England, as the government's expert adviser, is responsible for making recommendations – but it is still the Secretary of State at the Department for Digital, Culture, Media and Sport who makes the decisions on whether an asset is listed. Understanding and appreciation develop constantly, which makes keeping the listing database up-to-date a never-ending challenge.

While still responding to threat-driven cases, our approach is now more strategic, based around thematic and area-based projects. Recent developments have seen a greater striving for openness and transparency in the process of listing a site, and better communication of what makes something special.

In June 2016 Historic England launched [Enriching the List](#), a crowdsourcing initiative opening up the entries on the National Heritage List to contributions by users. Anyone can register as a volunteer and submit extra information about one of the assets on the List or submit photographs to illustrate it. This additional content will then be available for anyone to view with (but separate from) the official List Entry.

Alongside the nationally listed assets found on the National Heritage List for England are locally listed assets. Best known are conservation areas, but local authorities can also create lists of locally valued assets. Most archaeological sites of significance are not scheduled, but rely on local identification and management for their protection.

LISTED BUILDINGS

Listing is the most commonly encountered type of statutory protection of heritage assets. A listed building (or structure) is one that has been granted protection as being of special architectural or historic interest. The older and rarer a building is, the more likely it is to be listed. Buildings less than 30 years old are listed only if they are of very high quality and under threat. Listing is mandatory: if special interest is believed to be present, then the Department for Digital, Culture, Media and Sport has a duty to add the building to the List.

Listed buildings are graded I, II* and II. Grade I buildings are of outstanding interest, and II* are particularly important buildings of more than special interest; together they amount to 8% of all listed buildings. The remaining 92% are of special interest and are listed grade II. There are over 377,000 entries on the NHLE of buildings of special architectural or historic interest. Entries on the statutory list sometimes group together a number of separate buildings: a terrace will be counted as one entry, rather than as separate units. Entries on this Register reflect how buildings are grouped and recorded on the statutory List.

Structures can occasionally have dual List entries (be both listed as buildings and scheduled as monuments). In such cases, scheduling controls take precedence.

SCHEDULED MONUMENTS

Scheduled monuments include single archaeological sites and complex archaeological landscapes. Nearly 20,000 examples have been listed because of their national importance. Scheduled monuments are not graded. They cover human activity from the Paleolithic era, such as cave sites, to 20th century military and industrial remains. For the millennia before written history, archaeology is the only testament to innumerable generations of people of whom there is no other record. The later 20th century saw unprecedented changes to the landscape. As a result, some types of historic sites that once were commonplace began to become rare. Those that survive often represent just small islands of what once characterised broad sweeps of our towns and countryside.

Although protected by law, scheduled monuments are still at risk from a wide range of processes and intense pressures outside of the planning system. These include damage from cultivation, forestry and, often most seriously of all, wholly natural processes such as scrub growth, animal burrowing and coastal erosion. Scheduling is discretionary, and many archaeological sites of potential importance are not scheduled. Instead, they are managed through the planning system and other regimes.

REGISTERED PARKS AND GARDENS

There are over 1,600 landscapes on the current Historic England Register of Historic Parks and Gardens of Special Historic Interest. These registered landscapes are graded I, II* or II, and include private gardens, public parks and cemeteries, rural parkland and other green spaces. They are valued for their design and cultural importance, and are distinct from natural heritage designations.

Inclusion on the Historic England Register of Historic Parks and Gardens brings no statutory controls, but there is a clear presumption in favour of upholding their significance in government planning guidance, so they do gain protection. Local authorities are required to consult Historic England on applications affecting sites registered as grade I or II*, and the Gardens Trust on sites of all grades. The setting of other listed heritage assets can also protect registered landscapes.

REGISTERED BATTLEFIELDS

Historic England's Register of Historic Battlefields was set up in 1995, and is our youngest category of listing. Its aim is to protect and promote those sites where history was made through military engagement which can be securely identified on the ground. They range from the Battle of Maldon (991) to Sedgemoor (1685): almost half date from the period of the civil wars in the mid-17th century. These special places, where often thousands were killed, deserve our recognition and respect. Recently, additions have been made to the Register of Historic Battlefields for the first time since its creation. There are now 46 registered battlefields.

Protection is needed to prevent encroachment through inappropriate development, or insensitive (and damaging) metal detecting, which can permanently alter the archaeological record. As with registered parks and gardens, there is a clear presumption in favour of protecting registered battlefields in government planning policy.

PROTECTED WRECK SITES

There are over 50 protected wreck sites in England, which represent a tiny proportion of the 33,000 or so pre-1945 wrecks and recorded casualties that are known to lie in the territorial waters. Wreck sites can be of importance for different reasons: the distinctive design or construction of a ship, the story it can tell about its past, its association with notable people or events and its cargo. The Protection of Wrecks Act 1973 empowers the appropriate Secretary of State to list a restricted area around a vessel to protect it or its contents from unauthorised interference, and Historic England administers the attendant licensing scheme for divers seeking access.

CONSERVATION AREAS

Conservation areas are listed by local authorities and are areas of particular architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance. For 50 years, ever since the 1967 Civic Amenities Act, conservation areas have proved a highly effective mechanism for managing change on an area-wide basis.

There are currently nearly 10,000 conservation areas in England including town and city centres, suburbs, industrial areas, rural landscapes, cemeteries and residential areas. They form the historic backcloth to national and local life and are a crucial component of local identity.

Criteria for inclusion on the Register

RISK ASSESSMENTS

Heritage assets included on the Register are risk assessed according to the nature of the site rather than the type of listing. Building or structure assessments are used for secular listed buildings and structural scheduled monuments, typically masonry remains. Archaeology assessments are used for scheduled earthworks and below-ground remains. Thus a scheduled monument may appear on the Register in either or both the building and structure and the archaeology sections, depending upon what puts it at risk. Listed buildings that are in use as places of worship are assessed using the places of worship assessment. Registered parks and gardens, conservation areas, battlefields and protected wreck sites have their own assessments because they each have their own particular characteristics and factors that may put them at risk.

BUILDINGS AND STRUCTURES

To be considered for inclusion on the Register, buildings or structures must be:

- listed on the National Heritage List for England;
- a grade I or II* listed building;
- a grade II listed building in London;
- a structural scheduled monument with upstanding remains;
- in secular (non-worship) use.

Buildings or structures are assessed on the basis of condition and, where applicable, occupancy (or use) reflecting the fact that a building which is occupied is generally less vulnerable than one that is not.

Occupancy (or use) is assessed as 'vacant', 'part occupied', 'occupied', 'not applicable', or occasionally, 'unknown'. Many structures fall into the 'not applicable' category, for example: ruins, walls, gates, headstones or boundary stones.

Condition is assessed as 'very bad', 'poor', 'fair' or 'good'. The condition of buildings or structures on the Register is typically very bad or poor, but can be fair or, very occasionally, good. This reflects the fact that some buildings or structures are vulnerable because they are empty, underused or face redundancy without a new use to secure their future. Assessing vulnerability in the case of

buildings in fair condition necessarily involves judgement and discretion. A few buildings remain on the Register in good condition, having been repaired or mothballed, but still awaiting a new use or occupancy.

Buildings or structures are removed from the Register when they are fully repaired/consolidated, and their future secured either through occupation and use, or through the adoption of appropriate management.

PLACES OF WORSHIP

To be considered for inclusion on the Register, places of worship must be listed grade I, grade II* or grade II on the National Heritage List for England, and be used as a public place of worship at least six times a year.

Places of worship are assessed on the basis of condition only. If a place of worship is in very bad or poor condition, it is added to the Register. This includes places of worship which are generally in fair or good condition but have major problems with one key element, like the tower.

Historic England has visited and assessed listed places of worship considered to be in poor or very bad condition according to local assessments. Those that are identified as at risk are included on the Register.

Once on the Register, places of worship can move through the condition categories (e.g. from very bad to poor, to fair, even good) as repairs are implemented and the condition improves, until they are fully repaired and can be removed from the Register. This means that there are some places of worship in good condition on the Register but with outstanding issues still to be resolved at the time when they were assessed.

ARCHAEOLOGY

To be considered for inclusion on the Register, archaeological sites must be listed as scheduled monuments and included on the National Heritage List for England.

Archaeology assessments cover scheduled earthworks and buried archaeology. The risk assessment is based on their condition and vulnerability, the trend in their condition, and their likely future vulnerability. A site's condition is expressed in terms of the scale and severity of adverse effects on it, ranging from 'extensive significant problems' to 'minor localised problems'.

Archaeological entries are removed from the Register once sufficient progress has been made to address the identified issues, and a significant reduction in the level of risk has been demonstrated.

PARKS AND GARDENS

To be considered for inclusion on the Register, parks and gardens must be listed as grade I, grade II* or grade II and included on the National Heritage List for England. Parks and gardens are assessed in terms of condition and vulnerability. Steps being taken by owners to address problems are also taken into consideration.

Parks and gardens assessed as being at risk are typically affected by development and neglect. They have frequently been altered by development or are faced with major change. The original function of these landscapes has often changed and divided ownership leads to the loss of their cohesive historic design.

Park and garden entries are removed from the Register once steps have been taken to address issues and positive progress is being made.

BATTLEFIELDS

To be considered for inclusion on the Register, battlefields must be listed and included on the National Heritage List for England. Battlefields deemed to be at risk of loss of cultural significance are included on the Register.

The principal risks and threats are:

- development pressure e.g. encroachment of buildings;
- pressures of particular use within the site e.g. arable cultivation;
- damage e.g. unregulated metal detecting.

Battlefields are removed from the Register either when damaging activities cease/are managed, or when threats recede due to effective planning.

WRECK SITES

To be considered for inclusion on the Register, wrecks must be listed and included on the National Heritage List for England. Wreck sites are assessed based on their current condition, vulnerability and the way they are being managed.

Wrecks are vulnerable to both environmental and human impacts. Risks that contribute to inclusion on the Register range from unauthorised access to erosion and fishing damage.

The monitoring process ensures that the significance of the site is identified and maintained. In spite of the inherent difficulties in caring for this type of site, careful management must be maintained.

Wrecks are removed from the Register once an appropriate management and monitoring regime is operational.

CONSERVATION AREAS

Historic England has asked every local authority in England to complete (and update as appropriate) a survey of its conservation areas, highlighting current condition, threats and trends. Conservation areas that are deteriorating, or are in very bad or poor condition and not expected to change significantly in the next three years, are defined as being at risk.

The approach taken to assess conservation areas at risk has been refined since the first survey in 2008/2009. The information provides a detailed assessment of each conservation area. An overall category for condition, vulnerability and trend is included for each conservation area on this Register. Conservation areas identified as at risk in 2009, but not reassessed since using the revised methodology, are included on the Register but with limited information.

Conservation areas are removed from the Register once plans have been put in place to address the issues that led to the conservation area being at risk, and once positive progress is being made

Reducing the risks

One of the primary aims of the [Historic England Corporate Plan 2017-2020](#) is protecting places through Heritage at Risk grants and advice, thereby reducing the risk to heritage assets. In order to achieve this aim we are working to:

- better understand the nature and extent of risk
- encourage others to save and re-use heritage at risk
- build the capacity of the sector to deliver solutions for heritage at risk
- provide advice and grant aid to help remove sites from the Register.

Dedicated Heritage at Risk teams in our nine regional offices are tasked with achieving this aim.

Whilst each type of heritage asset and individual site will require its own approach and solution, there are some general approaches that are relevant to all 'at risk' assets. Finding solutions for heritage at risk requires working in close partnership with owners, local planning authorities and a wide variety of other organisations. The provision of clear advice is essential to further understanding of heritage at risk.

Maintenance and occupation or use (where appropriate) are essential in preventing heritage from becoming at risk. Maintenance of assets already at risk can prevent them from decaying further. Without maintenance, the cost of repair and consolidation escalates, the challenge for owners and occupiers increases, and the scope for affordable solutions declines.

The Heritage at Risk Register helps us understand what factors lead to heritage assets becoming at risk, what action is most likely to influence their condition and where resources can be focused to best effect. Historic Environment Records and local heritage at risk registers, maintained by local authorities, are additional repositories of information on local historic assets. They underpin the work of local authority historic environment services and can help improve the protection, conservation and management of assets.

Historic England provides a wide range of published guidance on reducing the risks, including: finding partners, funding, new uses for heritage assets, and enforcing urgent works and repairs. These are available to download from our website, www.historicengland.org.uk. Key publications and guidance are listed on pages XV-XVI.

BUILDINGS AND STRUCTURES

Our nine regional teams can help owners, developers and Local Authorities better understand buildings and

structures at risk, and advise on necessary repairs. They can help commission specialist surveys, help with feasibility studies and with brokering solutions. In particularly difficult cases, they can draw on the expertise of Historic England's national advisers specialising in structural engineering, quantity surveying, development economics, enforcement and planning law.

Historic England can help with access to funding. We have two principal grant streams ourselves: Repair Grants for Heritage at Risk and Section 17 Management Agreements, which are smaller grants for scheduled monuments. More information on funding can be found on the [Historic England](#) website. The support of other grant providers, including the Heritage Lottery Fund, the Architectural Heritage Fund and Natural England, is also critical.

We know how useful our own Register is in managing risk, prioritising action and engaging partners. We are therefore working with local authorities to encourage them to develop strategies for tackling buildings in poor condition. These strategies should include the use of enforcement powers; '[Stopping the Rot](#)' is our published guidance on this. Our legal team can provide training and support for local authorities considering enforcement action. In certain circumstances we can also provide [grant aid](#) to underwrite the cost of serving Urgent Works and Repairs Notices.

Building preservation trusts (BPTs) offer a tried and tested way of saving buildings at risk. We have close links with the [Architectural Heritage Fund](#) and fund their regional support officers to work across the country. They help BPTs and other not-for-profit organisations to access funding, carry out feasibility studies and develop solutions for buildings at risk. The [Heritage Network Trust](#) also provides information about support officers and BPTs. Guidance and case studies are available on the [Historic England](#) website.

PLACES OF WORSHIP

Historic places of worship are cared for by thousands of volunteers throughout the country. Sometimes these treasured buildings will require major repairs. However, regular maintenance will help prevent minor problems developing into unnecessary crises. Keeping drains and gutters clear is essential: the overflowing gutter soon soaks the wall beneath, rots the roof timbers behind it and makes the whole building vulnerable. In some areas congregations group together to engage reputable contractors at competitive rates to clear gutters and rainwater goods. Such cooperation enables them to get good quality work carried out at

reasonable prices by firms that understand historic buildings. The practical resources created by the [Maintenance Cooperatives Project](#) run by the Society for the Protection of Ancient Buildings are still available from their website. These are a great starting point for local groups wanting to work together to do basic, regular maintenance safely.

The Heritage Lottery Fund welcomes applications from places of worship seeking to do repairs, develop facilities or welcome more visitors. Grants of up to £100k are available from Our Heritage and over £100k from the Heritage Grants programme but congregations are free to apply to any of the [Heritage Lottery Fund programmes](#).

The Government's [Listed Places of Worship scheme](#), enabling the reclaiming of VAT on eligible repairs, maintenance and authorised alterations, is available to all listed places of worship, whether they have obtained grants or are funding work themselves. Local and national charities also offer grants.

Historic England supports congregations wanting to keep their places of worship in use and recognises the need for appropriate new facilities such as kitchens and toilets that are sensitive to the building's special character. Our [advice web pages](#) help congregations understand how changes can be achieved.

A network of support officers, employed locally but part-funded by Historic England, offers direct advice and encouragement to congregations. Projects to achieve repairs and develop necessary new facilities for both the community and visitors are breathing a new lease of life into these treasured parts of our heritage.

ARCHAEOLOGY

The continued excellent progress which is being made with reducing the number of scheduled monuments on the Register continues to demonstrate the value which owners and land managers are placing upon the positive management of archaeological sites.

The large majority of the 19,853 scheduled monuments in England are on land classified as agricultural. Effective information sharing with Natural England and Defra is therefore of great importance for prioritising management action and for targeting agri-environment grant schemes to best effect. This has been especially important under the Countryside Stewardship Scheme, where our advice has resulted in the removal of 32 sites from being at risk this year. Historic England, Natural England and local authority curators have collaborated on developing a web portal for the scheme which provides local advice to support farmers and landowner applications. Our work in partnership with Natural England on

agri-environment schemes has removed 801 scheduled monuments from the Register since 2009. We also continue to work closely with local trusts, volunteers and the Heritage Lottery Fund to identify the nationally important monuments for enhanced conservation, presentation and access projects.

Loss and damage as a consequence of arable cultivation remains the greatest source of risk to scheduled monuments on the Register, affecting 38% of archaeological entries on it. The Conservation of Scheduled Monuments in Cultivation (COSMIC) project has provided updated risk assessments for all sites affected by arable cultivation on the Register. It provides bespoke recommendations for each monument, enabling cultivation to continue where it does not present a risk. It will also be an important tool for advising owners on the longer term management of their monuments as the existing ten year Environmental Stewardship agreements expire.

Although great progress has been made, analysis of entries on the Register shows that unmanaged woodland, tree, scrub and bracken growth remains one of the most widespread causes of long-term damage to both urban and rural archaeological sites - even if the effects are not as visible or as immediately destructive as other processes. In most cases simple, low cost but regular maintenance is the key. The delivery of this will always be reliant upon the help and goodwill of landowners.

PARKS AND GARDENS

Although a statutory list, the Register of Historic Parks and Gardens of Special Historic Interest in England in itself brings no additional statutory powers, instead it is used in the development control process to provide a valuable tool for the protection of the sites it includes. The Government's National Planning Policy Framework (NPPF) stresses the desirability of sustaining and enhancing the significance of all heritage assets and finding viable uses consistent with their conservation.

The NPPF states that great weight must be given to the conservation of sites included on the Register of Historic Parks and Gardens of Special Historic Interest and that substantial harm or loss of such features can only be justified in exceptional cases.

A great many historic parks and gardens are either privately owned or held in trust. In addition, local authorities are responsible for nearly all the public parks and cemeteries in our towns and cities.

Registered parks and gardens are typically large, complex heritage assets, many of them in multiple ownership. It can take years to identify and implement proposals to improve their condition and trajectory. To help reduce the risks, Historic England encourages and works with owners to develop conservation management strategies. Landscape architects working in our Heritage at Risk teams can help tailor conservation management plans and funding packages for individual landscape features or whole sites. We work with partners, such as Natural England and the Heritage Lottery Fund, to help source funding to secure sustainable futures for parks and gardens at risk.

BATTLEFIELDS

As with registered parks and gardens, the Register of Historic Battlefields brings no additional statutory controls to registered battlefields, but the NPPF makes it clear that registered battlefields are of equal significance to scheduled monuments, buildings listed grade I and II*, registered parks and gardens and protected wreck sites. Therefore, the positive conservation and management of registered battlefields is a core element of current heritage legislation.

Historic England continues to work with owners to develop management plans for registered battlefields and, in appropriate cases, contribute towards the cost of management plans. We work to develop positive landscape strategies with owners and partners such as Defra through Environmental Stewardship schemes. In some circumstances, we may encourage the conversion from arable to pasture of especially sensitive locations to protect battlefield archaeology from the effects of ploughing and as part of a wider drive to prevent unauthorised or damaging metal detecting.

Historic England also continues to encourage greater access to battlefields and the improvement of their amenity value and visitors' understanding of the impact these dramatic historic events had on our development as a nation.

Local authorities can also invite comments from the Battlefields Trust on planning applications affecting the setting of registered battlefield sites.

WRECK SITES

At the strategic level, the major sources of risk to protected wreck sites have been identified. In terms of high priority sites, practical requirements have also been implemented through conservation management plans and appropriate intervention.

Risks to protected historic wreck sites can often be reduced through education, provision of marker buoys, or planning policies that take full account of their

national importance. However, some sites require significant resources to stabilise their condition or to carry out detailed archaeological assessments of their conservation requirements. Although Historic England has statutory power to allocate funds to promote the preservation and maintenance of protected wreck sites, its financial resources can solve only a small proportion of the problems.

In spite of the inherent difficulties with caring for this type of site, careful management must be maintained if we are to avoid the loss of wreck sites. It is therefore close cooperation between the owners of protected wreck sites (where known), authorised divers and all organisations charged with care for the marine and coastal environment, that will make the real difference to their long term survival. Practical advice on the management of historic wreck sites, whether at the coast edge or under water, is available from [Historic England](#).

CONSERVATION AREAS

Looking after conservation areas is a responsibility shared by those of us who live, work or do business in them, as well as those of us whose job it is to manage them or make decisions about their future.

The reasons conservation areas become at risk are difficult to address as they can cover large areas of land; they include streets, spaces, archaeology and trees as well as buildings and structures and therefore involve many different owners and approaches to management.

Local authorities complete the Conservation Areas Survey, providing us with an understanding of what is particularly affecting the character and appearance of conservation areas, what is working well or what is putting them at risk. Strong planning policies, guidance and a clear management strategy for individual conservation areas, backed up by effective enforcement, are all critical in managing change in these areas. Local authorities across the country continue to see their resources reduced, and this is making their task more difficult to deliver. Armed with the information provided by conservation area surveys, we, local authorities and other partners will have the evidence to direct resources much more accurately towards those conservation areas at greatest risk.

There are opportunities for members of the local community to get involved with protecting and enhancing their conservation area, either individually or through groups. Some local groups have helped to prepare character appraisals and management plans for conservation areas whilst others have carried out their own assessments to identify management issues.

Key statistics

BUILDINGS AND STRUCTURES

- Nationally, 840 (3.8%) of grade I and II* listed buildings (excluding places of worship) are on the Register. In the East of England the percentage is 2.3% (77 listed secular buildings).
- 7 building or structure entries have been removed from the 2016 East of England Register because their futures have been secured, and 9 have been added.
- 63.9% of buildings or structures (69) on the East of England baseline 1999 Register have been removed because their futures have been secured, compared with the national figure of 62.4%.

PLACES OF WORSHIP

- Nationally, 6.3% of listed places of worship are on the Register. In the East of England, 3.7% (87) are on the Register.
- 32 places of worship have been removed from the East of England Register following repair work, and 17 have been added.

ARCHAEOLOGY

- 2,480 (12.5%) of England's 19,855 scheduled monuments are on the Register. 175 (10.1%) of the East of England's 1,741 scheduled monuments are on the Register.
- 9 archaeology entries have been removed from the 2016 East of England Register for positive reasons, and 1 has been added.
- 44.3% of archaeology entries (90) on the East of England baseline 2009 Register have been removed for positive reasons, compared with the national figure of 45.7%.

- Nationally, damage from arable cultivation is the greatest cause of risk affecting 38.3% of archaeological entries on the Register. In the East of England the proportion is 72.2%.

PARKS AND GARDENS

- 96 (5.8%) of England's 1,652 registered parks and gardens are on the Register. Of the 218 registered parks and gardens in the East of England, 5 (2.3%) are on the Register.
- 1 park and garden entry has been removed from the 2016 East of England Register for positive reasons, and 1 has been added.

BATTLEFIELDS

- Of the 46 registered battlefields in England, 4 (8.7%) are on the Register. The one registered battlefield in the East of England is not on the Register.

WRECK SITES

- Of the 52 protected wreck sites around England's coast, 4 (7.7%) are on the Register.
- The East of England's single protected wreck site has been removed from the 2016 Register, and no entries have been added.

CONSERVATION AREAS

- 8,494 of England's 9,868 conservation areas have been surveyed by local authorities and 512 (6.0%) are on the Register. Of the 1,213 conservation areas in the East of England, 902 have been surveyed and 49 (5.4%) are on the Register.
- 3 conservation areas have been removed from the 2016 East of England Register for positive reasons and 11 have been added.

HISTORIC ENGLAND FUNDING

- £1.50 million in grant was spent on 31 entries on the East of England Register during 2016/17.

Risk assessments of heritage assets are based on the nature of the site. Buildings and structures include listed buildings (excluding listed places of worship) and structural scheduled monuments; archaeology assessments cover earthworks and buried archaeology.

Publications and guidance

Historic England has produced the following publications relating to heritage at risk, including:

[Assessment of Heritage at Risk from Environmental Threat: Key Message](#) (2013)

COSMIC 3 – Grappling with a 140-Year-Old Conservation Problem (2014) – [Historic England Research News 21](#), available online

[Counting our Heritage: a Heritage at Risk Survey for High Peak Staffordshire Moorlands by Community Volunteers](#) (2013)

[Heritage at Risk 2010 – Report](#) (2010)

[Heritage at Risk: Conservation Areas](#) (2009)

[Heritage at Risk 2017 – national summary leaflet](#) and [regional summary leaflets](#) for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, and Yorkshire.

[Heritage at Risk Online Register](#) – detailed listings for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, and Yorkshire can be downloaded from our website or viewed on an interactive database.

[How to Assess the Condition of Historic Buildings](#) – an online introduction to assessing condition.

[Monuments at Risk \(2008\)](#) – summary of scheduled monuments at risk for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, and Yorkshire.

[Protected Wreck Sites at Risk: A Risk Management Handbook](#) (2008)

[Stopping the Rot: A Guide to Enforcement Action to Save Historic Buildings](#) (2016)

[Vacant Historic Buildings: An Owner's Guide to Temporary Uses, Maintenance and Mothballing](#) (2011)

HERITAGE AT RISK ON THE WEB

To find out more about the Heritage at Risk programme visit [Heritage at Risk](#) where you will find an interactive database providing detailed information on all heritage sites at risk nationally.

Details of all nationally designated historic places in England are available in one place on the [National Heritage List for England](#) online database. Further information about the different classes of designated heritage assets, including listed buildings, scheduled monuments, registered parks and gardens, registered battlefields and protected wreck sites can be viewed at the same address.

GUIDANCE NOTES AND APPLICATION FORMS FOR GRANTS

[Historic England Grant Schemes](#) – online overview of all our current grant schemes, including the Repair Grants for Heritage at Risk scheme.

[The Installation of Telecommunications Equipment, Including Broadband and Mobile, in Churches and Other Listed Places of Worship](#) (2017)

Key to the entries

The Register includes the following risk assessment types:

- Building or structure
(grade I and II* listed buildings, grade II listed buildings in London and structural scheduled monuments)
- Place of worship
(grade I, II* and II listed buildings)
- Archaeology
(scheduled monuments – earthworks and buried archaeology)
- Park and garden
(Registered parks and gardens)
- Battlefield
(Registered battlefields)
- Wreck site
(Protected wreck sites)
- Conservation area
(Conservation areas)

Details are given here for all risk assessment types even if entries are not present in the Regional Register.

ORDER

Entries are grouped and ordered alphabetically, first by County (dark grey bands) or Unitary Authority (light grey bands), and then by Local Planning Authority (National Park/Unitary Authority/District or Borough).

A blank band denotes the end of a county and the beginning of a unitary authority.

Sites that straddle more than one local planning authority are included under the lead authority.

Within each planning authority, entries are grouped by risk assessment type in the following order:

- Buildings or structures
- Places of worship
- Archaeology
- Parks and gardens
- Battlefields
- Wreck sites
- Conservation areas

Within each risk assessment type, entries are ordered alphabetically by parish, locality and street/site name (except for conservation areas and protected wreck sites which are ordered by site name only).

LISTING

The principal listing type is noted for each entry and includes:

- Listed Building (LB) grade I or II*
- Listed Place of Worship grade I, II* or II
- Scheduled Monument (SM)
- Registered Park and Garden (RPG) grade I, II* or II
- Registered Battlefield (RB)
- Protected Wreck Site (PWS)
- Conservation Area (CA)

Other listing types that apply to a given site, including location within a World Heritage Site (WHS), are also noted.

If an entry is a dual list entry (both listed and scheduled), 'and' rather than a comma is used (eg 'Scheduled Monument and Listed Building grade I'). If a scheduled monument entry is a dual list entry with a number of listed buildings, each is separated by a semicolon.

The National Heritage List Entry Number is included for all entries (except conservation areas). If a site has dual list entries, all relevant List Entry Numbers are noted.

CONDITION

For buildings (including places of worship), condition is graded as: 'very bad', 'poor', 'fair' and 'good'.

For sites that cover areas (scheduled monuments (archaeology assessments), parks and gardens, battlefields and wreck sites) one overall condition category is recorded. The category may relate only to the part of the site or monument that is at risk and not the whole site:

- extensive significant problems
- generally unsatisfactory with major localised problems
- generally satisfactory but with significant localised problems
- generally satisfactory but with minor localised problems
- optimal
- unknown (noted for a number of scheduled monuments that are below-ground and where their condition cannot be established)

For conservation areas, condition is categorised as: 'very bad', 'poor', 'fair' and 'optimal'.

If a site has suffered from heritage crime it is noted in the summary. Heritage crime is defined as any offence which harms the heritage asset or its setting and includes arson, graffiti, lead theft and vandalism.

OCCUPANCY/USE

For buildings (excluding places of worship) that can be occupied or have a use, the main vulnerability is vacancy or under-use. Occupancy (or use) is noted as follows:

- vacant
- part occupied
- occupied
- unknown
- not applicable

VULNERABILITY

Principal vulnerability is noted for archaeology assessments and may relate only to the part of the site that is at risk, and include:

- animal burrowing
- arable ploughing
- coastal erosion
- collapse
- deterioration – in need of management
- scrub/tree growth
- visitor erosion

For parks and gardens, battlefields, wreck sites and conservation areas, vulnerability is noted as high, medium or low.

PRIORITY CATEGORY

Priority for action is assessed on a scale of A to F, where 'A' is the highest priority for a site which is deteriorating rapidly with no solution to secure its future, and 'F' is the lowest priority.

For buildings and structures and places of worship the following priority categories are used as an indication of trend and as a means of prioritising action:

- A Immediate risk of further rapid deterioration or loss of fabric; no solution agreed
- B Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented
- C Slow decay; no solution agreed
- D Slow decay; solution agreed but not yet implemented
- E Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use)
- F Repair scheme in progress and (where applicable) end use or user identified; or functionally redundant buildings with new use agreed but not yet implemented

For battlefields and wreck sites the following priority categories are used as a means of prioritising action:

- A No action/strategy identified or agreed (where trend is declining or unknown)
- B Action/strategy agreed but not yet implemented (where trend is declining or unknown)
- C No action/strategy identified or agreed (where trend is stable or improving)
- D Action/strategy agreed but not yet implemented (where trend is stable or improving)
- E Monitoring as appropriate (any trend)
- F Action implemented/strategy underway/scheme in progress (any trend)

Previous year priority categories are given in brackets, otherwise 'New entry' is noted.

'New entry – re-assessed' indicates an existing site on the Register that has been re-assessed using a different risk assessment methodology and is included on this year's Register under the new assessment type.

TREND

Trend for archaeology entries, parks and gardens, battlefields and wreck sites may relate only to the part of the site that is at risk and is categorised as:

- declining
- stable
- improving
- unknown

For conservation areas trend is categorised as:

- deteriorating
- deteriorating significantly
- no significant change
- improving
- improving significantly
- unknown

OWNERSHIP

A principal ownership category is given for each entry, and if sites are in divided ownership, a 'multiple' ownership category is noted.

CONTACT

This is the member of the Historic England local team who acts as a first point of contact for the case, and to whom enquiries should be addressed.

For conservation areas, the contact is the conservation/planning officer at the relevant local planning authority (indicated by 'LPA').

We are not in any sense agents for the owners of the sites included, but we will endeavour to put people in touch with them where appropriate.

SITE NAME:	Old Cheddar's Lane pumping station
DESIGNATION:	Scheduled Monument, CA
CONDITION:	Fair
OCCUPANCY:	Occupied/in use
PRIORITY CATEGORY:	B (New entry - re-assessed)
OWNER TYPE:	Charity (heritage)
LIST ENTRY NUMBER:	1006896

The pumping station was built in 1894 to house two Hathorn Davey steam engines and pumps to pump the town's sewage to the treatment works two miles away. Household rubbish was burned as boiler fuel to raise the steam to drive the engines. The site ran under steam, gas and electricity before closing in 1968. It is now the Cambridge Museum of Technology; the Heritage Lottery Fund awarded a grant in 2016/2017 towards the further development of the Museum. Historic England is currently grant aiding the first stage of internal repairs; further work will be needed in the future.

HUNTINGDONSHIRE

© Historic England

SITE NAME:	Great Gransden Windmill, Great Gransden	Constructed c1612, Great Gransden is one of the oldest surviving windmills in England. Consent for emergency repairs, including dismantling of the sails for safety reasons, was granted in late 2013. Some emergency works completed in 2014. A major programme of repairs, grant aided by Historic England, commenced in 2016 and was completed in May 2017. Next steps are for Gransden Mill Trust to take lease from Cambridgeshire County Council and complete repairs to stocks and sails and re-erect during 2017. The trust is developing plans to secure the long-term future of the site.

SOUTH CAMBRIDGESHIRE

© Historic England

SITE NAME:	Little Chishill Mill, Barley Road, Great and Little Chishill	Post mill, date of 1712 scratched on stud; possibly rebuilt 1819, main post renewed 1868. Patent sails c1912-16 replacing former canvas covered sails. Timber-framed, weatherboarded and painted, with brick piers. The main structure extends to the rear housing the bolter; restored fantail on ladder. The mill was last used in 1951, and was repaired in 1966. The buck is leaking and requires new weatherboarding. Mill transferred in 2017 to the Great Chishill Windmill Trust, who have made an application to Historic England for a Heritage at Risk grant.

SITE NAME:	Parish Church of St Swithun, Barley Road, Great and Little Chishill
DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Very bad
PRIORITY CATEGORY:	F (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1128142

C13 nave and chancel. Late C14 south aisle. C15 tower. Tower collapsed in 1892 and rebuilt 1897, at which time the nave and aisles were restored by FE Penrose. Early C20 vestry and organ chamber. Repairs including stabilising south porch and part renewal of drainage completed 2014. However, water ingress and possible movement over tower arch is causing on-going decay and cracking of stonework internally. Funding from the Heritage Lottery Fund Grants for Places of Worship scheme has been offered and the works are currently underway.

DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Very bad
OCCUPANCY:	Occupied/in use
PRIORITY CATEGORY:	B (A)
OWNER TYPE:	Local authority
LIST ENTRY NUMBER:	1114593

C18 house on site of Priory guesthouse with C13 medieval undercroft and some pre-Georgian cellars. The undercroft, built in clunch, is subject to complex structural movement and dampness issues. Dunstable Town Council accepted an Historic England Heritage at Risk grant in 2016 for a detailed study to examine condition and find solutions. Awaiting presentation of findings and options resulting from this investigation work in order to inform further discussion.

SITE NAME:	Church of St Peter and All Saints, Battlesden
DESIGNATION:	Listed Place of Worship grade I, RPG grade II
CONDITION:	Very bad
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1311979

Medieval church of C13 origin with later additions and alterations. Rubble walls with later brick to both C18 tower and modern parapets. Internal damp; black mould on walls which were only re-limewashed some three years ago. Various possible causes of damp can be identified. The tower has received quite a lot of cementitious patch repairs, which is not a good combination with the soft 'clunch' stone used for construction.

LIST ENTRY NUMBER:	1312589

Parish church dating to C12 and half rebuilt 1875-6 by Sir Arthur Blomfield. Stonework of coursed ironstone with ashlar dressings and clay tile roofs. Chancel, central tower, north and south transepts, nave, north and south aisles. Decayed clunch corner stones and tracery to the south aisle chapel and vestry, render panels failing. High-level masonry problems and tower in need of repointing.

LIST ENTRY NUMBER:	1123325

A timber-framed water mill with an integral dwelling thought to date to the mid-late C18. The mill building is little altered, and retains its water wheel, primary and secondary gearing and the great majority of its milling machinery. The water management system on the site is also unaltered making this ensemble of buildings, machinery and watercourses an extremely rare survival. Continuing concern over condition of mill. Local Authority monitoring.

DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Poor
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1277192

This church dates from the C12, with C14, C15, and C16 alterations. The continuous nave and chancel roof is tiled, and has a canted plaster ceiling. There is outward movement and cracking in the north and south walls. Deformation in the roof structure and discontinuity between it and the wall plates, cracking in the ceiling, and wind-driven rainwater penetration of the roof slopes are probably causing progressive failure of the battens and tile fixings.

SITE NAME:	Parish Church of All Saints, The Street, Stisted
DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	F (D)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1123870

Parish church of C12 origins, with C13 and C14 additions and some C19 restoration. A very unusual plan; the tower abutting the south side of the nave, leaving the west end as an uninterrupted symmetrical composition. Cedar shingles to the tower are in poor condition with daylight visible from inside. Masonry of tower buttresses poor, as is the nave roof, with visible decay in the rafter feet and wallplate. An Heritage Lottery Fund Grants for Places of Worship grant was accepted in February 2014 and repairs are underway.

SITE NAME:	Creeksea Place, Ferry Road, Creeksea, Burnham-on-Crouch
DESIGNATION:	Listed Building grade II*
CONDITION:	Very bad
OCCUPANCY:	Part occupied/part in use
PRIORITY CATEGORY:	B (D)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1123776

Former Elizabethan courtyard house completed in 1569, but the south range was demolished in 1740 and the east range rebuilt in C19. Fine original garden walls and gateways. The house suffers from major structural problems and is extensively propped internally. Comprehensive project development exercise completed with grant aid from Historic England to survey the building, research its history and plan long-term repairs. Meanwhile, the owners have stabilised the building, brought parts into use and carried out maintenance repairs. Discussions about further grants are currently in progress.

24 surviving buildings of a World War I Royal Flying Corps airfield; the largest known surviving group of this kind, now owned by a trust assisted by a keen and capable force of volunteers. Grant aid from Historic England, WREN and Government funding. Major repairs carried out to five buildings, with temporary repairs to the rest, but two collapsed before funds were available. A second museum on the site was opened by HRH The Duke of Kent in 2017. The site is an active airfield with original artefacts and flying (replica) WWI aircraft. Discussions for further phases of repair ongoing.

SITE NAME:	Martello Tower "D", 450 metres SSW of Clubhouse, Clacton Golf Course, Clacton on Sea
DESIGNATION:	Scheduled Monument and Listed Building grade II
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	I016553 and I111524

One of 29 Martello towers originally built along the east coast between 1808-12, against the threat of French invasion. Sold in 1904 and now absorbed into a golf course. The forward battery was lost in the 1980s during construction of new sea defences. No internal access currently possible but the monument suffers from water ingress and loss of render. Historic England funded a feasibility study in 2015-6 to help Tendring District Council identify beneficial use and repair costs, and options are being reviewed.

PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Local authority
LIST ENTRY NUMBER:	I016554 and I337150

One of 29 Martello towers originally built along the east coast between 1808-12, against the threat of French invasion. The forward battery was destroyed in 1819. The tower contains a large water tank, inserted after 1935 when the tower became incorporated into a holiday camp. Access by ladder to first floor. Suffers from water ingress and loss of render. Discussions held with Tendring District Council regarding repairs to defective external render and a beneficial use. Historic England has funded a feasibility study for repair and reuse, and options are currently being reviewed.

C18 watermill; white weatherboarding over painted brick base. Beam engine c1873 now gone but mill machinery intact. Mill disused since 1930s. Roofs leaking and building splitting apart. Front wall bulging and some of the weatherboarding is missing. These defects put the structure and the machinery inside at serious risk. Investigation and urgent works to 'mothball' the building, grant aided by Historic England, have been carried out. Discussions ongoing regarding next steps.

Remains of an Augustinian priory founded before 1127 and post-Dissolution mansion incorporating monastic remains. The site comprises a number of buildings including the main house, a gatehouse, Darcy Tower and various other buildings and standing remains, most in need of major repairs. The Darcy Tower (pictured) remains scaffolded. The 'ruined range' was repaired by Historic England in 2013-15. In 2016 planning permission for conversion and enabling development was agreed. Repairs to the Baliff's Cottage and adjoining range were completed summer 2017.

LIST ENTRY NUMBER:	1233999

Church with probable C12 origins. Largely demolished and rebuilt in the 1860s. Constructed from flint rubble with stone dressings and a tile roof. Shingled spire showing signs of loss and curling of shingles; north transept (vestry) roof tiles are slipping. The latter are over a C15 roof structure with plastered ceiling and there is mould growth on the western part of the ceiling, which is indicative of a leaking roof. Other tiles slipping elsewhere.

SITE NAME:	Remains of old church tower of St Mary and All Saints Church, Thundridge
DESIGNATION:	Listed Building grade II*, SM
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1077953

Ruinous C15 west tower belonging to the C11-C12 church of St Mary and All Saints. Flint rubble with some dressings; a Romanesque doorway has been reset within the blocking of the chancel arch. The church was demolished in 1853, and only the three-stage tower remains substantially above ground. The building is suffering from decay, vandalism and anti-social behaviour. Repeated works to prevent access to the interior of the tower have resulted in increasing damage. In redundancy process, discussions with Diocese and the Local Authority continue over long-term future, and safeguarding fabric.

C18-early C19 landscape park laid out by Humphry Repton for early C19 country house (demolished mid C20), utilising the Mimram valley and earlier C18 landscape by Lancelot 'Capability' Brown at Cole Green. Phased mineral extraction since the 1990s has impacted landscape character, key views and the condition of landscape features including gardens, water bodies and woodland. Undergoing restoration as a country park, with some areas already open to the public. A Heritage Management Plan is in development to inform the next phases following completion of active quarrying later this year.

Knebworth House comprises one wing of a C16 courtyard house remodelled in lavish neo-Tudor style in the mid C19. This later external work was in very poor condition for many years, and despite a major campaign of work some years ago with English Heritage grant aid, much remains to be repaired. The current major project is the repair of the 'Watchman's Tower' range (pictured), for which an application for an Historic England Heritage at Risk grant was made in summer 2017.

Ruined remains of a small C14 two-cell church with bellcote. Built of flint rubble with stone dressings, plastered externally. Probably a ruin by end of C17. Church was dedicated to St Nicholas. Inspection showed loss of voussoirs from openings and general erosion of fabric which requires consolidation. The church is currently in the process of being declared redundant and Historic England are keen to discuss measures to secure its future when it passes into private ownership.

LIST ENTRY NUMBER:	1175545

Tithe barn built late C15 or early C16. The building is now vacant and in need of major repairs. Other buildings on site have been converted into houses. Sympathetic proposals for repair and partial conversion have been agreed but have yet to be implemented. Barn letting in water. Owner has agreed to carry out timber-frame and roof repairs as essential preliminary to implementing conversion works. LPA conservation officer inspected site in June 2017 to ascertain and agree extent of, and how to complete, the timber frame-repairs. Discussions ongoing.

SITE NAME:	Church of St Mary, Church Street, Baldock
DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	F (D)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1347611

Prominently sited parish church dating from the C13, with C14 and C15 alterations and additions. Some C19 restoration. Tower spire C19. Tower, with nave and chancel, north and south aisles and porches. Nave and south aisle roofs are leaking. Some of flint facework on south aisle and to south porch is loose. An Heritage Lottery Fund Grants for Places of Worship grant for the south aisle roof was awarded in 2014; the project development stage was completed in 2016 and the project is progressing to the repairs.

DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	A (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1102715

C14 church (completed 1381). C15 north porch and aisle windows. Built of clunch and flint rubble with some red brick. Low pitched slate roofs behind parapets. West tower is of four stages and has deeply projecting, stepped-angle buttresses. Leaded spire with crenellated octagonal base. Lowest stage has four-light decorated-style traceried window; belfry stage has paired pointed arches with traceried panels. There is dramatic decay to the clunch stone on the church tower.

LIST ENTRY NUMBER: 1003999 and 1306023

Ruinous lodge constructed early C15. In need of structural repairs including wall capping and repointing. Historic England has provided advice on repair techniques to the Local Authority conservation officer, who is liaising with the owner regarding repairs. Historic England offered a grant in December 2014 towards repairs but these were not taken forward. However, ownership of property is likely to change in 2017, which will mean a new discussions to agree a long-term solution. Negotiations have also recently taken place with the Local Authority regarding development around the site.

SITE NAME:	Stockhouse at Manor Farm, The Green, Freethorpe
DESIGNATION:	Listed Building grade II*
CONDITION:	Fair
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	F (F)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	I152503

Farm building dated to 1828 and built for the Walpole family, who owned Freethorpe in the C19. This is the most complete example of probably no more than six surviving stock houses of this type. Repair works and conversion underway but not yet completed.

SITE NAME:	Church of All Saints, Beighton, Church Hill, Beighton
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Very bad
PRIORITY CATEGORY:	B (B)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	I051445

Church dated as C14-C15 but possibly earlier. Medieval scissor-braced and thatched nave roof is in poor condition. Fine internal features including medieval wallpaintings, decoration, and consecration cross. A grant from the Heritage Lottery Fund Grants for Places of Worship has been offered and works are being developed to the repair stage.

SITE NAME:	Parish Church of St Agnes, Church Lane, Cawston
DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	F (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	I263465

Large medieval church built on iron trade wealth, largely C15. Tower funded by the Earl of Suffolk. Hammerbeam roof, medieval polychrome decoration on nave and south transept roof structure, and more of the decorative scheme on the rood screen which includes figurative painted panels of high quality (by Flemish painters) and of international importance. Widespread ingress of damp due to defective ground and rainwater drainage, leaking roofs and windows. An Heritage Lottery Fund Grants for Places of Worship grant application in 2016 has been successful and work is progressing to repair stage.

SITE NAME:	Church of St Peter and St Paul, Church Lane, Oulton
DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Very bad
PRIORITY CATEGORY:	F (F)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	I372723

Parish church comprising nave, chancel, south porch and tower with crenellated parapet. The building is of flint rubble with limestone dressings. A site inspection confirmed that tower parapet has loose masonry and there are other high-level structural defects to the tower that require urgent attention. An Heritage Lottery Fund Grants for Places of Worship grant was offered in 2014 and the repair project is now underway.

LIST ENTRY NUMBER:	1049202

Medieval former church, taken on by the Norfolk Churches Trust who have completed an extensive scheme of external fabric repairs. The Trust secured a Listed Places of Worship Roof Repair Fund grant in March 2015 towards the cost of re-roofing. Repairs now completed and condition of churchyard has improved. However, interior remains unusable and further repairs are required, especially to the detaching plasterwork. Talks on-going with village as to whether they are able to take on building, and if so, whether a suitable new use can be found.

The gasworks produced town gas from 1825 until 1965 and is now the only remaining town gas works of its kind in England. Acquired by a charity in 1983 and repaired, it was opened as a museum in 1989. Damp and ground movement are causing structural weakness to key industrial buildings and machinery. Corrosion of metalwork and metal components. Issues surrounding the condition and structural integrity of retort housing and adjacent chimney. Condition survey undertaken in January 2016 to inform future programme of repairs and consolidation.

DESIGNATION:	Listed Place of Worship grade II*, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	A (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1049847

Parish church dating to 1260 with fine interiors. An Historic England and Heritage Lottery Fund Repair Grants for Places of Worship grant was awarded in December 2011 for repairs which are now completed. However, excessive damp still affects the building throughout. The gutters to the nave and aisles leak and the below-ground drainage is ineffective. The church has also been subject to heritage crime.

On an eminence, broadside to the sea. C13/14, with much dating from the late C15. The tower has been pointed in cement mortar and rendered in cement internally at the base stage. The turret stair is similarly constructed and displays many vertical cracks and cracks on the stair treads. In urgent need of repair. Furthermore, the belfry louvres require modification to reduce the amount of salt-laden moisture entering the structure. An Heritage Lottery Fund Grants for Places of Worship grant was awarded in 2016 and the investigation stage is on-going.

DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	F (D)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1171738

A largely C15 church comprising tower, south porch, north and south aisles, nave and chancel. Building suffered from damp due to inadequate below-ground drainage system. South aisle roof slates laid at too slack a pitch and letting in water. Nave roof north side is slated with fixings failing. Internally the tower east wall cement render is loose and in places at imminent risk of falling. An Heritage Lottery Fund Grants for Places of Worship grant was awarded early in 2014 and some repairs were completed; a further grant has been awarded for the remaining repairs needed, which are underway.

Contact: Trudi Hughes 01223 582739

SITE NAME:	Church of St Peter, North Walsham Road, Witton
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Poor
PRIORITY CATEGORY:	B (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1170258

Church with early C14 nave, later C14 chancel and early C15 tower. Restorations in C18 and C19. The rainwater gutters are undersized and incorrectly positioned, causing rainwater to fall onto the walls and onto buttress tops and window tracery. Excess salt migration and algae growth; damage to early internal plasterwork. The pammets (floor tiles) in the chancel are damp. All of these defects are indicative of failed above- and below-ground drainage systems. In addition, the mullions of the tower west window are falling apart. Listed Places of Worship Roof Repairs Grant awarded 2016.

Early C18 park and woodland designed as a collaboration between Thomas Ripley, Charles Bridgeman and Horatio Walpole, surrounding an early C18 Palladian mansion with mid-C19 gardens laid out by William Sawrey Gilpin. The park has a focus on wildlife management, some fields arable others pasture. Loss of definition of lake margins. Some replanting of clumps to west and avenue to north of house. Built structures in very poor condition; Peach House in kitchen garden particularly vulnerable. A Parkland Management Plan is in progress.

LIST ENTRY NUMBER:	1152891

The west tower and nave of this church date from the C11. Characteristic Norman windows of that period survive, but the nave roof was replaced in the C15 with a double hammerbeam roof, all the more remarkable for its small scale and good state of survival. Repairs are needed to the masonry and roofs of the tower, north porch and chancel. An Heritage Lottery Fund Grants for Places of Worship grant was offered 2015 and the project is progressing towards repairs.

SITE NAME:	Church of All Saints, Market Lane, Great Melton
DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Fair
PRIORITY CATEGORY:	F (F)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1050731

Church of C11 origins, with fabric surviving of that period (long and short quoins, and reused Roman tiles). The extent of C19 rebuilding or restoration is less than once believed, hence its recent upgrading to II*. Areas of flintwork in poor condition, especially on the tower. An Historic England and Heritage Lottery Fund Repair Grants for Places of Worship grant was accepted in 2010 and the repairs completed in 2015. A Listed Places of Worship Roof Repairs grant was offered in March 2015 and the repairs commenced in 2016.

SITE NAME:	Church of St Mary, Church Lane, Haddiscoe
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1169126

Parish church. C11 with C13 and C15 re-modelling. Round west tower, probably late C11, divided into stages by three stone bands. North west bay of chancel has C15 two-light window flanked by blocked circular openings. North aisle has two-light C13 'Y' tracery windows and, at north west corner, north doorway with billet hood mould and shaft, scallop and roll-moulded arches. Widespread damage from damp caused by inadequate disposal of rainwater is leading to deterioration of internal fabric and structural problems in external walls.

Contact: David Eve 01223 582721

SITE NAME:	Church of St Botolph, Chapel Lane, Morley
DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1373064

Parish church dating to the C15, restored and re-roofed in the 1960s. Constructed from flint with ashlar and brick dressings. Pantile roof. Although re-roofed in the 1960s, there are a number of slipped tiles on the south slope and heavy moss to the north, alongside blocked gutters. The rainwater goods are in a poor condition throughout. Pigeons in the tower may also be causing damage.

Contact: David Eve 01223 582721

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; or functionally redundant buildings with new use agreed but not yet implemented.

NOTE
Last year's priority category is shown in brackets (otherwise, New Entry is noted).

CONDITION:	Poor
PRIORITY CATEGORY:	F (F)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1304940

Welborne parish church dating from C12. The C12 round tower has a C19 brick corbel course and conical roof. There is a C15 porch with blind spandrel tracery to entrance. The tower is in a poor condition with large cracks at high level and slates falling from the roof. The tower is currently cordoned off for safety reasons. An Heritage Lottery Fund Grants for Places of Worship grant has been offered and the repairs are anticipated to be underway by late 2017.

SITE NAME:	Manor House, Suttons Road, South Shoebury
DESIGNATION:	Listed Building grade II*
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Government or agency
LIST ENTRY NUMBER:	1306855

House, 1681. Currently vacant, last used as residential quarters. Re-use of the building is complicated by its location within a military site. A serious dry rot problem was treated 1998-2003, but has caused considerable damage to the interior. Building has been vacant for many years. Rigid application of 3-year break clause in all long leases granted by Ministry of Defence has seriously worsened potential for reuse by charitable trusts. On-going water ingress due to defective rainwater goods.

Contact: Sheila Stones 01223 582716

LIST ENTRY NUMBER:	1351965

Barn built C15, timber-framed and brick nogging. It is redundant and is only suitable for a very low-key use. It is structurally unstable and water is penetrating the walls in places, accelerating decay of its structure. Historic England and the Local Authority are involved in ongoing discussions with the owner to secure the conservation of the barn. Urgent works notice served and some repairs implemented. Fully detailed and costed schedule of repairs prepared in anticipation of service of Repairs Notice. Discussions underway with Local Authority and Building Preservation Trust.

SITE NAME:	Badley Hall barn 100 metres south east of Badley Hall, Badley
DESIGNATION:	Listed Building grade II*, SM
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1231085

A very well built and unusually complete C15 or early C16 timber-framed barn on a flint rubble plinth. Timber frame in need of repair.

Contact: Clare Campbell 01223 582738

© Historic England

SITE NAME:	Badley Hall dovecote 60 metres east of Badley Hall, Badley
DESIGNATION:	Listed Building grade II*
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	D (F)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1231084

A rare example of a near-complete C16 timber-framed dovecote. Some nesting boxes remain. First phase of a repair programme carried out in 2013 but further work needed.

Contact: Malcolm Starr 01223 582723

SITE NAME:	Poplar Farmhouse, Brome and Oakley
DESIGNATION:	Listed Building grade II*
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (New entry)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1284932

Two-storey farmhouse, timber framed and plastered with a thatched roof. Main range built c1400 with late C16 cross-wing, forming T-shape plan. Rare single-ended Wealden form, and very rare combination of queen posts and king posts to roof. Roof structure, some walls and parts of the interior destroyed by accidental fire in April 2016. Historic England are working with Mid Suffolk District Council to identify and negotiate a solution.

SITE NAME:	Smock Mill, 20 metres north of Mill Cottage (including attached Engine Shed and Oil Engine), Woolpit Road, Drinkstone
DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Poor
OCCUPANCY:	Part occupied/part in use
PRIORITY CATEGORY:	D (New entry)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1285454

Timber-framed smock mill structure which incorporates the base of an earlier horse-driven mill, and which was engine-driven in the final phase of its working life. The sails and fantail have been removed, but the engine and belt drives and the buildings which house them survive in situ, as does the milling machinery installed to replace the sail-driven machinery once the mill ceased to be wind powered. Owner applied for an Historic England Heritage at Risk grant in June 2017.

SITE NAME:	Barn 200 metres west of Hall's Farmhouse, Halls Lane, Norton
DESIGNATION:	Listed Building grade II*
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	B (B)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1352406

Timber-framed and weatherboarded barn, mid C16. High quality timber frame with some rare features. Soleplates rotted and whole barn leaning sideways. Roof was wind and weathertight on date of last visit. Working with the owners, an Historic England Project Development Grant was able to assist with emergency propping of the building to stabilise it and, the commissioning of a structural survey. Works were completed in May 2017, and will inform further works. Discussions continue regarding repairs and potential alternative use.

SITE NAME:	Church of St Mary and St Laurence, The Street, Great Bricett
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Very bad
PRIORITY CATEGORY:	B (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1352160

Formerly the monastic church of the Priory of St Leonard, founded 1114-19. The Prior's Lodgings and remains of the cloister also survive. The walls have much early, possibly original fabric with traces of medieval wallpaintings and decoration. Tiled roofs in poor condition and leaking. A first Heritage Lottery Fund Repair Grants for Places of Worship grant application was unsuccessful in 2015; a second application was submitted in 2017 and was successful.

SITE NAME:	Church of St Mary, The Street, Horham
DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1032540

Medieval parish church. Core of the nave probably dates from C12. The nave contains C12 doorways. The chancel was largely rebuilt 1879-8. Beneath all the belfry lights is square flushwork. The nave seating includes C15 benches with poppyhead ends, enriched with buttressing and fleurons. The principal issue is damp, particularly on the external walls of the nave.

SITE NAME:	Church of St John the Baptist, High Street, Needham Market
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Very bad
PRIORITY CATEGORY:	F (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1254254

Large parish church dating to 1470-1500, although used as a chapel of ease until 1901. Constructed from flint and limestone rubble with stone dressings and a pantile roof; the nave has one of the finest hammerbeam roofs in Suffolk. Nave roof and rendered clerestorey facing panels are in a poor condition, and the hammerbeam roof has been identified as deformed and over-stressed. Grant application to Heritage Lottery Fund was successful in 2017; work progressing to repair stage.

Contact: Malcolm Starr 01223 582723

DESIGNATION:	Registered Park and Garden grade I, 22 LBs, part in CA
CONDITION:	Generally satisfactory but with significant localised problems
VULNERABILITY:	High
TREND:	Declining
NEW ENTRY?:	No
OWNER TYPE:	Private, multiple owners
LIST ENTRY NUMBER:	1000155

Extensive mid-C19 Italianate garden by Charles Barry set in C17 park, for which Humphry Repton prepared a Red Book in 1789 and William Woods in 1808. Many proposals have been implemented in the expanded park. The site is in divided ownership following sale in 2009 and boundary fence erected. Management of Old Hall landscape is improving but the built garden features and planting are significantly decayed. Improved management strategies for the park as a whole need to be developed to safeguard its future.

ST EDMUNDSBURY

© Historic England

SITE NAME:	Building 58, Former RAF Barnham Atomic Bomb Store, Gorse Industrial Estate, Barnham
DESIGNATION:	Listed Building grade II*, SM
CONDITION:	Very bad
OCCUPANCY:	Occupied/in use
PRIORITY CATEGORY:	F (New entry)
OWNER TYPE:	Commercial company, multiple owners
LIST ENTRY NUMBER:	1402411

Building 58, a bomb inspection building, is a rare structure in both a national and international context. It was built in the 1950s for the 'Blue Danube' bomb, Britain's first atomic weapon. RAF Barnham is the only such facility in England surviving largely intact. Building 58 has strong group value with the other buildings at the atomic bomb store. Two-storey reinforced concrete structural frame, suffering from advanced stages of reinforcement corrosion. An Historic England Heritage at Risk Repair Grant was accepted in February 2017. Investigation work underway.

CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1377186

Parish church with ruinous west tower. Chancel rebuilt in 1862 and the nave restored in 1864. The condition of the drainage and guttering is unclear; however, there is significant evidence of damp within the church interior. The ruinous tower is blocked off from the nave and is overgrown by trees and shrubs. Slow decay continues; no solution yet agreed for either the church or the ruinous tower. Ivy growth partially killed; some work appears to have been completed.

LIST ENTRY NUMBER:	1268184

Parish church. C14 with significant C19 alterations. South aisle roof leaks, gutters undersized with evidence of rot on the roof boarding. The south side roofs to the nave and chancel have many tangles, indicative of rusting iron slate fixings. There is a C15 hammerbeam roof below the nave roof slating. An Heritage Lottery Fund Grants for Places of Worship grant was offered March 2016 and the works are at the project development stage.

Contact: Trudi Hughes 01223 582739

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; or functionally redundant buildings with new use agreed but not yet implemented.

NOTE
Last year's priority category is shown in brackets (otherwise, New Entry is noted).

© Historic England

SITE NAME:	Bawdsey Manor, Bawdsey	Gardens laid out between 1885 and 1909 on advice from Alfred Parsons. The garden contains an extensive Pulhamite cliff garden, complete with seats and alcoves, built in the 1890s by Pulham & Co. Site is improving with house no longer at risk following Historic England grant-aided works which were completed in 2012. Informed work to some garden structures now being undertaken. Pulhamite cliff garden in poor condition and in need of strategic management. Coastal erosion remains a major concern. The site has recently changed ownership.

LIST ENTRY NUMBER:	1006060 and 1034404

Medieval castle built by Roger Bigod. Problems with the southern C13 tower to the gatehouse have been addressed and urgent repairs completed. Discussions ongoing over further repairs and conservation work to the keep, northern gatehouse tower, and curtain and bailey walls. Conservation statement and condition survey currently being prepared to inform next steps.

CONDITION:	Poor
OCCUPANCY:	Occupied/in use
PRIORITY CATEGORY:	A (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1032000

Former farmhouse, mid to late C16. Two storeys and attics. Timber framed and rendered, with thatched roof, internal chimney stack and cross-entry. The thatched roof is in a very poor condition and partially covered by tarpaulin. Several rafters and a purlin have failed. The external render is deteriorating and damp is becoming an issue. Highly decorative plaster ceilings and fireplaces could be at risk from damp and water ingress.

SITE NAME:	Mettingham Castle, Mettingham
DESIGNATION:	Scheduled Monument, 2 LBs
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	B (B)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1006055

Substantial remains of medieval castle and college of canons. The site is in various ownerships. Many elements of the structures are in need of consolidation to prevent loss of medieval masonry. Repairs completed in 2009 to the keep and part of curtain wall. Further repairs needed to the gatehouse and related parts of the curtain wall. An Historic England Heritage at Risk grant has been accepted in order to undertake a project development phase to ascertain extent and costs of the repairs necessary.

SITE NAME:	Church of St Margaret, Stoven, Brampton with Stoven
DESIGNATION:	Listed Place of Worship grade II*
CONDITION:	Very bad
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1032100

Parish church. C12 doorways, the lower portion of the tower possibly medieval; remainder entirely rebuilt 1849-50 in neo-Norman style. The tower is of flint rubble, the bell-chamber stage faced with knapped flint; the nave and chancel are plastered; stone dressings. Slated roofs with courses of fish-scale slates. Poor construction in C19 has resulted in serious structural failures in masonry, particularly the south nave wall, and water penetration. Roof poor; interior fair; rainwater goods satisfactory.

Contact: Robert Parkinson 01223 582733

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.

SITE NAME:	Church of St Margaret, St Olaves Road, Somerleyton, Ashby and Herringfleet
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Very bad
PRIORITY CATEGORY:	F (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1031950

Parish church. Medieval with some C19 restoration, but round tower has original Saxon-type triangular-head window openings; also C11 or C12 details elsewhere, including a window in the chancel and the detailing of the nave south door. The church has a unique collection of C14-C18 reclaimed stained glass said to be from Cologne. Thatched nave roof in very poor condition and external walls damp. Movement in chancel walls and east window. An Heritage Lottery Fund Grants for Places of Worship application in 2016 was successful; project development progressing towards repairs.

SITE NAME:	State Cinema, George Street, Grays
DESIGNATION:	Listed Building grade II*
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Commercial company
LIST ENTRY NUMBER:	1111543

The State Cinema is one of the best preserved of the 'super cinemas' of the late 1930s. It was constructed in 1938 by FGM Chancellor for Frederick's Electric Theatres. The building has suffered from heritage crime and the roof, rainwater goods and interior are in poor condition. The reuse of the vast cinema poses complex problems, as confirmed by a feasibility study some years ago. The building is in new ownership and proposals are under discussion for conversion to a public house. Asbestos and bird droppings have been removed from the building.

SITE NAME:	Coalhouse Fort, Tilbury
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	Part occupied/part in use
PRIORITY CATEGORY:	F (A)
OWNER TYPE:	Local authority
LIST ENTRY NUMBER:	1013943

Ruined C19 armoured casemate fort on site of earlier battery; refortified for both World Wars. Severe water ingress to casemates; barrack blocks in severe disrepair. The generator house has now been repaired and converted to a café. An Historic England grant aided the repair of the gatehouse barrack block in 2011. Subsequent site surveys, in part funded through a Historic England Heritage at Risk grant, were completed in early 2017, with the major repairs to make the site watertight expected to commence in late 2017.
